RESEARCH INTERESTS

Development economics, household food security, and applied econometrics — with focus on Bangladesh's socio-economic challenges. Specific interests include determinants of household poverty and welfare, AI's impact on employment and income distribution, and ESG sustainability challenges in developing economies. Eager to deepen expertise in causal inference, panel data econometrics, and impact evaluation for evidence-based policy research.

EDUCATION

Bachelor of Business Administration (BBA) — Business Analytics *Graduated: 2026*

United International University, Dhaka, Bangladesh

CGPA: 3.08 / 4.00 | Major GPA: 3.67 / 4.00

Coursework: Econometrics · Business Analytics · Statistical Modelling · Research Methods · Database Management · Development Economics · Data Visualization

HSC — Adamjee Cantonment College, Dhaka | GPA: 4.50 / 5.00 *2020*

SSC — Tejgaon Adarsha School & College, Dhaka | GPA: 4.67 / 5.00 *2018*

PUBLICATIONS

Journal Articles

Household food insecurity in Bangladesh: A micro econometric analysis of economic vulnerability, income risk, and livelihood finance. *International Journal of Public Policy and Administration Research, Conscientia Beam.* https://archive.conscientiabeam.com/index.php/74/article/view/5169

Manuscripts Under Preparation

Artificial Intelligence and Job Creation: Analyzing Employment Impact Across Retail, Education, and IT Industries in Bangladesh. *Manuscript under preparation.*

Water Scarcity, Environmental Compliance, and ESG Challenges in Bangladesh's Textile Industry: Implications for Sustainable Development. *Manuscript under preparation.*

RESEARCH EXPERIENCE

Primary Researcher — Household Food Insecurity (Published) *2025 – 2026*

Independent Research · Econometric Modelling · Bangladesh

- Designed research methodology, data collection instruments, and variable operationalization for a micro-level study of household food insecurity — applied regression-based econometric models to 500+ household observations and published findings in a peer-reviewed international journal.
- Conducted extensive secondary literature review and produced a policy-grade report with evidence-based recommendations for food security and livelihood finance interventions in Bangladesh.

Researcher — AI Employment Impact & Textile ESG Studies *2024 – 2025*

Cross-sector Economic & Sustainability Research

- Conducted primary and secondary research on AI-driven employment transformation across 3 industries and ESG compliance challenges in Bangladesh's textile sector — both manuscripts under preparation for journal submission.

PROFESSIONAL EXPERIENCE

Business Analyst Intern *2026 – Present*

Anwar Group of Industries, Dhaka, Bangladesh

- Applying quantitative research methods professionally — collecting, cleaning, and analyzing operational data to generate structured insights, KPI dashboards, and management reports using Power BI, Excel, and SQL.

ANALYTICAL PROJECTS

Demand Forecasting & BI System · Business Performance Dashboard *2024 – Present*

Python (Pandas, Matplotlib) · SQL · Excel · Power BI

- Developed time-series forecasting models and regression-based analytics on longitudinal business datasets, built 3 executive BI dashboards tracking 8+ KPIs across 1,000+ observations — applying academic quantitative modelling methods in applied data science contexts.

APPLICATIONS BUILT (VIBE CODING)

MoneyPilot — Personal Finance Tracking & Future Planner *Live web app*

moneypilot-delta.vercel.app

- Built a "Personal Finance OS" around a save-first principle: salary-day planning, expense tracking, step-by-step debt repayment, and savings goals with an emergency fund.

Carpenter Loyalty Program — Anwar Cement Sheet *Live web app*

acslperformance.vercel.app

- Built a loyalty program portal where each carpenter signs in with a personal login code that opens only their own area report.

Personal Portfolio Website *Live website*

mdhabibulislam0.vercel.app

- Designed and built a responsive static portfolio (HTML, CSS, JavaScript) presenting analytics work, published research, projects, and certifications.

TECHNICAL SKILLS

Econometric & Statistical: Regression Analysis, Econometric Modelling, Hypothesis Testing, Time-Series Analysis, Descriptive Statistics

Programming & Data: Python (Pandas, Matplotlib), SQL, R (basic), Advanced Excel (PivotTables, Power Query), HTML/CSS/JavaScript

Visualization & BI: Power BI, KPI Dashboards, Management Reporting, Matplotlib, Excel Charts

Research Methods: Survey Design, Primary & Secondary Data Collection, Literature Review, Qualitative & Quantitative Analysis

Project Management: Project Planning, Stakeholder Coordination, Scope & Scheduling Fundamentals

Productivity: Microsoft Office 365, Google Workspace, LaTeX (basic), Notion

CERTIFICATIONS & LANGUAGES

Certifications: Project Management For Entrepreneurs — Project Management Institute (PMI), Oct 2026 | Power BI for Beginners — Simplilearn SkillUp | SQL for Data Analysis — Simplilearn SkillUp | Crash Course on Python — Interactive Cares | Power of Mindset — Anwar Learning Academy

Languages: English — Professional Proficiency | Bangla — Native

LEADERSHIP & SERVICE

Campus Ambassador — Global Youth Change Maker · Event Organizer — BD Cyclists · Volunteer — Hamonto Riders *2022 – Present*

- Coordinated youth outreach and leadership campaigns, led large-scale community events, and contributed to social impact initiatives across Dhaka.
